

LOCATION	ADDRESS	BURGER DESCRIPTION	COST (\$)*
<p><i>This year I've organized the burgers by general location, attempting, in the process, to put them in order (a.k.a. walking order) for more efficient transitions between burger joints to maximize intake potential. Obviously. Strategy. I've then gone and colour coded each section, so the lighter colours reflect the fixed \$6 burgers and the darker colours reflect the "Feed Nova Scotia burgers", which are being sold at a higher cost as a portion of the proceeds are being donated, as indicated.</i></p>
